

Svam Packaging Industries Pvt. Ltd

“ We Value Packaging ”

Introduction

Svam packaging industries pvt. Ltd.(SVAM) was established in the year 1998 with a mission of extending its services to the growing Pharmaceutical Industry. Svam has been providing the pharmaceutical industry with various packaging material. The company is renowned for its quality products, competitive prices with fast delivery and delivery support. Since its inception SVAM has never looked back in terms of growth and expansion

Considering our strong presence in the Pharmaceutical industry, Korea Aluminium Co. Ltd., Korea have aligned with us for their venture into the global pharmaceutical Industry.

Establishment

SVAM is a Group Company of M/s Satish Enterprises (SE) established on the year 1981. SE has constantly met the marking and coding needs of Pharmaceutical and Food Industry.

From 1991 to 2005. SE was associated with the pioneers in the blister packaging machines, M/s Precision Gears Ltd. (Associate of M/s IMA, Italy.)

SE being a 27 year old organization serving the marking and coding requirement nearly all the medium and big pharmaceutical and Food Companies has become a renowned name in India.

Mr. Satish Kumar (Director) started his career in foil printing for Pharmaceutical industry in the year 1975. Using his experience he set up SE in the year 1981 and SVAM of the year 1998

Strength

Today in India relying in the experience and innovative strength of our 50 plus strong work force. Our products are manufactured or processed under strict hygienic conditions to comply with their use in pharmaceutical Industry. We provide our customers with all kinds of technical support as and when required. Besides our high speed and friendly after-sales service have endeared us to the customers.

Network

Currently SVAM has a strong presence across the country with large as well as medium Pharmaceutical Companies as our clients. In regard to serve the growing Pharmaceutical Industry, SVAM is in the process of opening an office in Dubai.

Ever since the invention and introduction of Cold Formable (Alu / Alu Foil) over two decades ago, the Alu/Alu foil has become the internationally accepted norm for packaging pharmaceutical products.

Svam Packaging Industries Pvt. Ltd. (SVAM) is into marketing of ALUBLIS (Alu /Alu foil) which has wide range of applications in the Pharmaceutical Industry

ALUBLIS is suited for applications which require forming cavities (i.e. blisters), while sustaining the highest possible barrier protection. These include packaging Tablets and Capsules.
